With 5+ years of software development experience, specializing in **JavaScript**, **TypeScript**, **React**, **Node.js**, **React Native** and **Flutter** seeking opportunities to build innovative and scalable solutions. Proven expertise in leading and delivering complex projects, backed by a results-driven approach and a commitment to excellence.

Skills

React JS, React Native, Typescript, Javascript, Next JS, Node JS, Nest JS, Flutter, TailwindCSS, GraphQL, SQL, Postgres SQL, Mongo DB, Firebase, Redis, React Query, Redux, Zustand, Langchain, GitHub Actions, AWS, Docker

Work History

2022-01 - Current

Technical Lead

Glue Labs, India

- Led product development at Glue Labs, from conceptualization to scaling, for products like **FIFO.im** , **Glue Mobile App** , **xG** , and **Glue Identity** .
- Designed user-centric UX flows and architected repositories using best practices to ensure scalability and performance.
- Conducted code reviews to improve quality, security, and compliance with standards.
- Streamlined workflows through detailed documentation, enhancing onboarding and collaboration.
- Scaled the team from 8 to 40+ through strategic hiring and mentoring, while developing an **Intern Training Module** and training 30+ interns in core technologies like **React** , **Flutter** , and **Node.js** .

2021-10 - 2022-01

Senior Software Development Engineer

Glue Labs, India (Remote)

- Built a **Voice Calling App** using **React Native** , **Firebase** , and **Agora** , enabling users to create/join voice chat rooms.
- Spearheaded development of **FIFO.im** and **Glue Mobile App** from scratch using **React** , **Node.js** , and **Flutter** , delivering scalable and innovative solutions.

- Led cross-functional teams, designed UX flows, and defined product roadmaps to ensure timely delivery and user satisfaction.
- Refactored codebases with **TypeScript** and **ESLint** , improving code quality, security, and maintainability.
- Streamlined developer workflows through comprehensive documentation for seamless collaboration.
- Contributed to cancer screening project, improving scheduling processes and healthcare accessibility.

2019-02 - 2021-10   ### Software Development Engineer

GeekyAnts, Bengaluru, India

- Worked on 6+ client projects as a full-stack developer using technologies like **React** , **React Native** , **Svelte** , **Next.js** , **Node.js** , **Flutter** , and **GraphQL** .
- Delivered high-quality features on time across multiple projects, ensuring performance and client satisfaction.
- Experienced with state management tools such as **Redux** , **React Query** , **Zustand** , **SWR** , **Flutter Bloc** , and **Riverpod** .
- Conducted 40+ technical interviews for **GeekyAnts** and mentored 3-4 interns on best practices and code quality.
- Delivered a **Tech Talk** on voice calling in **React Native** with Agora.

Projects

Dashgen (Solo Developer – dashgen.in)
- Currently building a platform to interact with **LLMs** (e.g., **OpenAI** , **Anthropic** , **Mistral**) using API keys in one unified interface.
- **Technologies:** Next.js, TailwindCSS, React Query, Zustand, NestJS, PostgreSQL, Redis, LangChain.

FIFO (fifo.im) (Technical Lead @ Glue Labs)
- Built a **blogging platform** to explore insights about **D2C businesses** , offering users real-time interactions and scalable infrastructure.
- **Technologies:** Next.js, NestJS, TailwindCSS, React Query, PostgreSQL, Redis, Deepstream.

Glue (Technical Lead @ Glue Labs)
- Developed an app to create **fan pages** with **AI-generated videos** and rewards to engage customers.
- **Technologies:** Next.js, NestJS, TailwindCSS, React Query, PostgreSQL, Redis.

Glue Identity (Technical Lead @ Glue Labs)
- Built an **identity management platform** with features like authentication, RBAC, and OAuth 2.0, designed for scalability and security.
- **Technologies:** Next.js, NestJS, TailwindCSS, React Query, PostgreSQL, Redis, Ory Kratos, Ory Hydra.

Sortly (Software Development Engineer @ GeekyAnts)
- Worked on a **React-based application** with state management and styled components, ensuring high-quality code practices.

- **Technologies:** React, Redux, Styled Components, Jira, Bitbucket.

Acrobody (Software Development Engineer @ GeekyAnts)
- Created **web and mobile apps** from scratch, incorporating state management and responsive designs.
- **Technologies:** React, React Native, Redux, Redux-Saga, Bootstrap, NativeBase, Firebase.

Airops (Software Development Engineer @ GeekyAnts)
- Developed web and mobile solutions to track expenses, featuring PDF report generation and dynamic interfaces.
- **Technologies:** React, Flutter, Redux, Material UI, PDF Builder, Aqueduct.io.

Hotcoldbags (Software Development Engineer @ GeekyAnts)
- Delivered a **Shopify-based e-commerce site** with a functional cart and multi-payment system in just 2 weeks.
- **Technologies:** Shopify, Liquid.

Torii Homes (Software Development Engineer @ GeekyAnts)
- Built a **full-stack platform** for real estate, featuring dynamic UIs and consistent state management across web and mobile.
- **Technologies:** NestJS, React Native, Node.js, Knex, Material UI, NativeBase, Redux.

Education

2016-08 - 2020-05 **Bachelor of Technology: Computer Science Engineering**

Chitkara University - Chandigarh

- Final Grade: **8.96 CGPA**

Awards and Honors
- 2nd Runner Up in Coding Ninja Coding Competition

Certifications
- Udacity Nano Degree In iOS Development
